

QUNET Token

Authorization-Driven Execution Framework

Legal & Risk Disclosure

Legal & Risk Disclosure

QUNET Token

Last updated: v1.0

1. General Disclaimer

QUNET Token is a research-oriented, experimental digital artifact deployed as an ERC-20 smart contract on the Ethereum blockchain.

This document is provided for informational and transparency purposes only and does not constitute:

- **Investment advice**
- **Financial advice**
- **Legal advice**
- **Tax advice**
- **An offer or solicitation of securities or financial instruments**

Nothing contained herein should be interpreted as a recommendation to purchase, hold, or use QUNET Token for speculative or investment purposes.

2. Non-Investment Statement

QUNET Token is not an investment product.

It does not represent:

- **Equity**
- **Ownership**
- **Voting rights**
- **Governance rights**
- **Profit-sharing rights**
- **Dividends or yield**
- **Any claim on assets, revenue, or future value**

No expectation of profit, appreciation, or economic return is expressed or implied.

3. No Offering or Sale

QUNET Token is not offered or sold as part of:

- **An Initial Coin Offering (ICO)**
- **An Initial DEX Offering (IDO)**
- **A private sale**
- **A public sale**
- **A fundraising event**

The project does not solicit capital from the public.

Any interaction with the token is entirely voluntary and undertaken at the user's own discretion.

4. Utility & Functionality Disclaimer

QUNET Token has no guaranteed utility.

Any references to:

- **Authorization**
- **Coordination**
- **Execution**
- **Settlement**
- **Network participation**

They are not promises of functionality, usability, or future application.

Actual use depends on external systems, experimental integrations, or research contexts that are unlikely to ever occur.

5. Technical & Smart Contract Risks

Blockchain-based systems inherently involve technical risks, including but not limited to:

- Smart contract bugs or vulnerabilities
- Network congestion or failures
- Forks, reorgs, or protocol changes
- Wallet software errors
- User key loss or compromise

Although the QUNET Token smart contract is intentionally minimal and verified on Etherscan, no software is risk-free.

Users interact with the contract at their own risk.

6. Market & Liquidity Risks

QUNET Token:

- May have no active liquidity pool
- May not be listed on any exchange
- May have limited or no market availability
- May experience extreme price volatility if traded

No commitments are made regarding:

- **Liquidity provision**
- **Market making**
- **Exchange listings**
- **Price stability**

Market exposure, if any, is incidental and not a project objective.

7. Regulatory Uncertainty

Cryptographic tokens and blockchain-based systems may be subject to:

- **Evolving regulations**
- **Jurisdiction-specific restrictions**
- **Regulatory reinterpretation over time**

QUNET Token is published as open-source software and does not target any specific jurisdiction.

Users are solely responsible for:

- **Determining legality in their jurisdiction**
- **Compliance with applicable laws and regulations**
- **Any tax or reporting obligations**

8. No Guarantees & No Liability

The project provides no guarantees, including but not limited to:

- Continued development
- Ongoing maintenance
- Future documentation updates
- Ecosystem growth or adoption

To the maximum extent permitted by law, the project contributors disclaim liability for:

- Direct or indirect losses
- Financial damages
- Loss of funds
- Loss of access
- Any consequential or incidental damages

9. Forward-Looking Statements

Any statements regarding potential future research, documentation, audits, or experimental activities are forward-looking and non-binding.

Such statements:

- **Are subject to change**
- **May never be realized**
- **Do not constitute commitments or promises**

10. Acceptance of Risk

By interacting with QUNET Token, its documentation, or related materials, you acknowledge that:

- **You understand the experimental nature of the project**
- **You accept all associated risks**
- **You are acting independently and voluntarily**

If you do not understand these risks, you should not interact with blockchain-based assets.

11. Final Statement

QUNET Token is:

- **Software**
 - **Experimental**
 - **Open-source**
 - **Non-promissory**
- NOTHING MORE IS IMPLIED.**
